INDEPENDENT AUDITORS' REPORT

Board of Directors
Pennington Biomedical Research Foundation
Baton Rouge, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the Pennington Biomedical Research Foundation (the Foundation), which comprise the statements of financial position as of June 30, 2014 and 2013, the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to an entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, the financial position of the Foundation as of June 30, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

1) Summary of significant accounting policies

Organization

The Pennington Biomedical Research Foundation (the Foundation) is a non-profit charitable organization dedicated to providing the Pennington Biomedical Research Center (the Center) with financial support derived from individual, foundation, and corporate philanthropy. The Center's mission is to discover the triggers of chronic diseases through innovative research that improves human health across the lifespan. As such, the Center has made many significant contributions to disease prevention, health, and longevity with a particular focus on diabetes, cardiovascular disease, obesity, dementia, and cancer.

Basis of accounting

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Promises to give

Unconditional promises to give are recognized as revenue in the period the promise is received. Promises to give are recorded at their realizable value if they are expected to be collected in one year or at fair value if they are expected to be collected in more than one year. Based on management's assessment of collectability, an allowance for doubtful accounts is not necessary at either June 30, 2014 or 2013.

Office equipment

Office equipment is stated at historical cost. Additions, renewals, and betterments that extend the lives or increase the values of assets are capitalized. Maintenance and repair expenditures are expensed as incurred. Provisions for depreciation are computed using accelerated methods over the estimated useful lives of the assets.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are recorded at fair value based on quoted market prices. For those investments where quoted market prices are unavailable, management estimates fair value based on information provided by the fund managers or the general partners. Dividend, interest, and other investment income are recorded as increases in unrestricted, temporarily restricted, or permanently restricted net assets depending on donor stipulations.

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

1) **Summary of significant accounting policies (continued)**

Investments (continued)

Donated investments are recorded at their fair value at the date of receipt, which is then treated as cost. Realized gains and losses on dispositions are based on the net proceeds and the adjusted cost basis of the securities sold, using the specific identification method. Realized gains and losses are recognized in the Foundation's current operations.

Split-interest agreements

Irrevocable split-interest agreements are recorded as revenue when the trust agreements are executed. Revenue from the split-interest agreements is based on the present value of the expected cash flows to be received by the Foundation over the term of the agreements. Changes in the values of the split interest agreements are recorded in the statements of activities and classified as unrestricted, temporarily restricted or permanently restricted depending on the classification used when the contribution was originally recorded.

Funds held in custody

The Foundation considers all state matching funds and unexpended income from these funds to be funds held in custody. All funds held in custody are recorded in the statements of financial position at their fair values.

Revenue recognition

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence or nature of any donor restrictions. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as net assets released from restrictions.

Income taxes

The Foundation has been recognized by the Internal Revenue Service as a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal income taxes pursuant to Section 501(a) of the Internal Revenue Code.

The Foundation accounts for income taxes in accordance with the guidance included in the Accounting Standards Codification (ASC). The Foundation recognizes the effect of income tax positions only if the positions are more likely than not of being sustained. Recognized income tax positions are recorded at the largest amount that is greater than 50% likely of being realized. Changes in the recognition or measurement are reflected in the period in which the change in judgment occurs.

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

1) Summary of significant accounting policies (continued)

Income taxes (continued)

The Foundation has evaluated its position regarding the accounting for uncertain income tax positions and does not believe that it has any material uncertain tax positions. With few exceptions, the Foundation is no longer subject to examinations by tax authorities for years ending before June 30, 2011.

Statements of cash flows

For purposes of the statements of cash flows, cash and cash equivalents includes operating funds on deposit at various financial institutions.

Statements of functional expenses

The costs of providing for the various programs and other activities of the Foundation have been summarized on a functional basis in the consolidated statements of activities and functional expenses. Accordingly, certain costs have been allocated among the programs and supporting benefits based on management's estimates.

Concentrations of credit risk

The Foundation's investments are secured by the Securities Investor Protection Corporation (SPIC). Any investment balances over the SIPC coverage are insured by private insurance of the investment custodian. SIPC and private insurance do not insure the quality of investments or protect against losses from fluctuating market values.

Reclassification

Certain amounts in the prior year financial statements have been reclassified to conform with the current year presentation.

2) Unconditional promises to give

Unconditional promises to give at June 30, 2014 and 2013 consisted of the following:

	<u>2014</u>	<u>2013</u>
Promises to give expected to be collected in:		
Less than one year	\$ 1,959,511	\$ 1,266,710
One to five years	<u>3,323,433</u>	<u>1,028,665</u>
	5,282,944	2,295,375
Less: discount on promises to give	<u>(104,538)</u>	<u>(22,741)</u>
Net unconditional promises to give	<u>\$ 5,178,406</u>	<u>\$ 2,272,634</u>

The rates used in discounting unconditional promises to give were 1.62% and 1.41% as of June 30, 2014 and 2013, respectively.

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

3) Split-Interest agreements

The Foundation is the irrevocable beneficiary of two split-interest agreements, related to a charitable lead trust and a charitable remainder trust, under various terms and conditions. The funds are held and administered by unrelated third party trustees. The Foundation's interests in the funds held by the trustees are recorded at fair value in the statements of financial position as beneficial interests in split-interest agreements.

For the charitable lead trust, the discount rate used in the present value calculation for future payments is the prevailing rate of interest for similar types of high quality, fixed income investments. The discount rates used for 2014 and 2013 were 4.20% and 4.42%, respectively and the remaining term of the agreement is approximately 15 years at June 30, 2014.

For the charitable remainder trust, the donor is the sole income beneficiary for life, with the Foundation receiving the principal amount of the trust upon the donor's death. The discount rates used in the present value calculations for the future payment were the ten year treasury-bond rate at June 30, 2014 and 2013. The discount rates used for 2014 and 2013 were 2.53% and 2.50%, respectively, and the estimated remaining term of the agreement was approximately 9 years at June 30, 2014.

Income statement adjustments recognized for these split-interest agreements were a positive adjustment of \$79,591 for the year ended June 30, 2014 and a negative adjustment of \$36,724 for the year ended June 30, 2013. As of June 30, 2014 and 2013, the fair value of the beneficial interests was \$658,986 and \$627,927, respectively. The Foundation received distributions from the charitable lead trust of \$48,534 and \$45,969 for the years ended June 30, 2014 and 2013, respectively.

As of June 30, 2014, trust distributions are expected to be received as follows:

Less than one year	\$ 50,671
Two to five years	205,753
Six to ten years	327,989
More than ten years	<u>265,406</u>
	849,819
Less: Discount to net present value	(190,833)
Beneficial interest in split-interest agreements	<u>\$ 658,986</u>

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

4) **Investments**

Investments in debt and equity securities with readily determinable fair values are stated at their estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

The asset allocation of the Foundation's portfolio involves exposure to a diverse set of markets. The investments within these markets involve various risks such as interest rate risk, market risk, and credit risk. The Foundation understands that the value of its investments may, from time to time, fluctuate substantially as a result of these risks.

The investments of the Endowed Professorship Programs and the Endowed Chairs for Eminent Scholars Programs are maintained and managed in brokerage accounts in compliance with the Board of Regent's investment policy.

Investments are stated at fair value and consisted of the following at June 30, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Equities	\$ 9,187,347	\$ 8,434,577
Domestic fixed income securities	9,301,621	8,270,833
Hedge fund of funds	2,872,387	2,737,713
Real estate investment trust	843,290	766,727
Master limited partnerships	18,947	-
Money market funds	<u>2,916,168</u>	<u>1,798,187</u>
	<u>\$ 25,139,760</u>	<u>\$ 22,008,037</u>

Investment earnings are allocated to unrestricted, temporarily restricted and permanently restricted net assets based on donor restrictions for certain permanently endowed funds and policies approved by the Board of Directors for certain non-endowed funds. The Foundation allocates investment activity to the pooled endowed investments based on the average daily balance of each endowed project. A spending allocation approved by the Board of Directors is made each year to the funds.

Investment earnings were comprised of the following for the years ended June 30, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Dividends and interest	\$ 399,696	\$ 487,066
Realized gains on sales of investments	598,622	322,981
Unrealized gains on investments	<u>728,691</u>	<u>493,290</u>
	<u>\$ 1,727,009</u>	<u>\$ 1,303,337</u>

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

5) Fair value of financial instruments

In accordance with the *Fair Value Measurements and Disclosure* topic of FASB ASC, disclosure of fair value information about financial instruments, whether or not recognized in the statements of financial position, is required. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instruments; therefore, the aggregate fair value amounts presented do not represent the underlying value of the Foundation.

The fair value guidance provides a consistent definition of fair value, which focuses on exit price in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires use of significant judgment. The fair value is a reasonable point within the range that is most representative of fair value under current market conditions.

Fair Value Hierarchy

The *Fair Value Measurements and Disclosures* topic of the FASB ASC provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the framework are described as follows:

- Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.
- Level 2 - inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement which is determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

5) **Fair value of financial instruments (continued)**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Foundation's investments in securities with readily determinable fair values are recorded at fair value based on quoted market prices. For those investments where quoted prices are unavailable, management estimates fair value based on quoted prices for similar instruments with consideration of actively quoted interest rates, credit ratings and spreads, prepayment models, and collateral data. The Foundation utilizes several externally managed fund of funds for private equity, venture capital, and hedge funds, and with these types of investments, quoted prices are often unavailable, and pricing inputs are generally unobservable. The Foundation relies on the valuation procedures and methodologies of the external managers hired specifically to invest in such securities or in strategies which employ such securities. The application of those valuation procedures and methodologies are born out in each manager's compliant annual audited financial statements and were monitored through the Foundation's reporting period ended June 30, 2014.

Level 3 Valuation Techniques

Although direct valuation techniques and methodologies for Level 3 assets are not completed internally, Foundation staff and the Foundation's investment advisor conduct ongoing monitoring and review of managers to ensure that reporting and valuation techniques are in accordance with industry standards and best practices. The investment advisor seeks to identify managers with experienced personnel and sound investment philosophy. Managers must demonstrate strength in key tenets such as conviction, consistency, pragmatism, investment culture, risk control, and active return. Capital statements, audit reports, current and past performance, and pertinent news regarding changes in management are scrutinized as an integral part of the due diligence process prior to hiring a manager. In addition, Service Organization Control Reports for fund administrator internal controls are obtained and reviewed. These reports are prepared by external independent firms and provide assurance concerning the suitability of the design and operating effectiveness of the administrators' controls and control objectives. These same elements are monitored on an on-going basis, as a matter of regular business practice, following the hiring of a manager. Level 3 asset types for which this due diligence process and focused monitoring are applied internally consist of investments in hedge fund of funds.

The valuation process conducted internally for Level 3 assets categorized as Beneficial Interests in Split-Interest Agreements primarily entails a calculation of the present value of proceeds expected to be received in accordance with the terms of the agreements. Each agreement is reviewed by management to determine the amount of any contractual and/or estimated payments to income beneficiaries using available actuarial data.

NOTES TO FINANCIAL STATEMENTS

5) **Fair value of financial instruments (continued)**

The following table presents the changes in fair value, in Level 3 instruments that are measured at fair value on a recurring basis for the years ended June 30, 2014 and 2013:

	<u>Hedge Funds of Funds</u>	<u>Split-interest Agreements</u>	<u>Total</u>
Balance - July 1, 2012	\$ 2,489,327	\$ 42,222	\$ 2,531,549
Purchases	76,037	83,495	159,532
Sales	(59,457)	(35,035)	(94,492)
Unrealized gains	232,622	3,224	235,846
Realized losses	(816)	(4,443)	(5,259)
Balance - June 30, 2013	2,737,713	89,463	2,827,176
Purchases	220,418	27,870	248,288
Sales	(263,265)	(54,831)	(318,096)
Unrealized gains	177,521	3,939	181,460
Realized losses	-	(3,671)	(3,671)
Balance - June 30, 2014	<u>\$ 2,872,387</u>	<u>\$ 62,770</u>	<u>\$ 2,935,157</u>

Realized and unrealized earnings and/or losses are included in the investment income (loss) allocations in the consolidated statements of activities.

6) **Funds held in custody and permanently restricted net assets**

Included in investments at June 30, 2014 and 2013, were funds held-in-custody with the Foundation's investment custodian, which represent the fair value of the matching funds received from the State of Louisiana and earnings allocations available for expenditure. Investments also include private donations which are permanently restricted by donors.

The Endowed Chairs for Eminent Scholars Program requires a \$600,000 private donation and a matching \$400,000 gift from the State of Louisiana, making a total endowment of \$1,000,000 per program. The Eminent Scholars Program requires a \$60,000 private donation and a \$40,000 matching gift from the State of Louisiana, making a total endowment of \$100,000. Total funds held in custody were as follows:

	<u>2014</u>	<u>2013</u>
State Matching Funds	\$ 7,220,980	\$ 6,801,733
	<u>\$ 7,220,980</u>	<u>\$ 6,801,733</u>

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

6) Funds held-in-custody and permanently restricted net assets (continued)

Permanently restricted net assets were as follows at June 30, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Private donations	\$ 8,021,819	\$ 7,913,086
Beneficial interest in split interest agreements	<u>658,986</u>	<u>627,927</u>
	<u>\$ 8,680,805</u>	<u>\$ 8,541,013</u>

7) Unrestricted net assets - board designated

The Foundation maintained a Board Designated unrestricted fund balance of \$328,488 and \$321,764 as of June 30, 2014 and 2013 respectively, for use of future Center projects. These funds will remain within the Foundation and will be distributed to or on behalf of the Center at various times in the near future.

8) Temporarily restricted net assets

Temporarily restricted net assets were available for specific nutritional research programs and other nutritional research programs being conducted at the Pennington Biomedical Research Center. Temporarily restricted net assets consisted of the following at June 30, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Endowed Chairs & Professorships	\$ 3,335,310	\$ 2,324,294
Specific Research Projects	8,061,605	3,858,902
Faculty Research Support	<u>1,607,114</u>	<u>1,710,476</u>
Total Temporarily Restricted Net Assets	<u>\$ 13,004,029</u>	<u>\$ 7,893,672</u>

9) Net assets released from restrictions

Net assets released from donor restrictions for incurring program related expenses satisfying the restricted purposes for the years ended June 30, 2014 and 2013, were as follows:

	<u>2014</u>	<u>2013</u>
Endowed Chairs & Professorships	\$ 484,681	\$ 475,491
Specific Research Projects	880,157	818,433
Faculty Research Support	<u>118,163</u>	<u>325,015</u>
Total Restrictions Released	<u>\$ 1,483,001</u>	<u>\$ 1,618,939</u>

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

10) Endowed net assets

The primary objective of the Foundation's investment and spending policies for its endowed assets is to be a source of capital for the current and future support of the Center. Implicit in this objective is the financial goal of preserving and enhancing the inflation-adjusted earning and purchasing power of assets. The long-term investment objective of the endowed portfolio is to attain an average annual real total return at or above the level of spending and fees. Real total return is investment return minus inflation. It is also the intent of the policy to earn the highest rate of return over the long term, consistent with prudent funds management, and to provide adequate distribution of income to the Center, within policy and budget guidelines.

Certain endowed funds are provided by the State as a match to qualifying private endowed contributions and are managed under agreement with the Louisiana State University System for its benefit. These endowed assets are further subject to the investment and spending policies established by the Louisiana Board of Regents, which has statutory authority to administer the matching funds program.

The net asset composition by type of fund was as follows as of June 30, 2014:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>
Donor-Restricted Endowment	\$ <u>328,488</u>	\$ <u>3,418,572</u>	\$ <u>8,680,805</u>	\$ <u>12,427,865</u>

The net asset composition by type of fund was as follows as of June 30, 2013:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>
Donor-Restricted Endowment	\$ <u>321,764</u>	\$ <u>2,358,608</u>	\$ <u>8,541,013</u>	\$ <u>11,221,385</u>

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

10) Endowed net assets (continued)

Changes in endowment net assets were as follows as of June 30, 2014:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>
Endowment net assets, June 30, 2012	\$ 298,189	\$ 1,616,257	\$ 8,577,637	\$ 10,492,083
Investment return:				
Investment income	-	705,322	-	705,322
Net appreciation (depreciation)	-	855,829	(36,724)	819,105
Contributions	350,000	-	100	350,100
Appropriation of endowment assets for expenditure	(326,425)	(818,800)	-	(1,145,225)
Endowment net assets, June 30, 2013	321,764	2,358,608	8,541,013	11,221,385
Investment return:				
Investment income	-	931,887	-	931,887
Net appreciation (depreciation)	-	612,758	79,591	692,349
Contributions	284,661	-	60,201	344,862
Appropriation of endowment assets for expenditure	(277,937)	(484,681)	-	(762,618)
Endowment net assets, June 30, 2014	<u>\$ 328,488</u>	<u>\$ 3,418,572</u>	<u>\$ 8,680,805</u>	<u>\$ 12,427,865</u>

A spending rate is determined by the Foundation's Board of Directors on an annual basis, with consideration given to the market conditions, the spending levels of peer institutions and the level of real return after spending measured over a rolling five year time period. The spending rate approved by the Board is applied to the five year average market value of the investment pool of endowed assets. The objective is to provide relatively stable spending allocations. The net spending rates approved by the Board of Directors for the June 30, 2014 and 2013 allocations were 5.00% and 4.75%, respectively. In accordance with the Board's policies, no portion of the corpus (original amount of donation) of the endowed assets shall be allocated for program spending.

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

10) Endowed net assets (continued)

The Louisiana Board of Regents spending policy dictates that no portion of the corpus, as defined by the Regents, is to be allocated for spending.

Guided by the philosophy that asset allocation is the most significant determinant of long-term investment return, the Foundation's Board of Directors establishes asset allocation targets for its pool of endowed assets in order to achieve the total return objectives of its investment policy within acceptable risk levels. Target ranges are established within asset classes, and investments are diversified in order to minimize the risk of large losses.

From time to time, the fair value of assets associated with donor-restricted endowment funds may fall below the level the donor or the Board of Regents policy requires the Foundation to retain as a fund of perpetual duration. There were no deficiencies of this nature as of June 30, 2014 or June 30, 2013. Subsequent gains that restore the fair value of the assets of the endowment fund to the required level will be classified as an increase in temporarily restricted net assets.

11) Retirement contributions

The Foundation makes an annual contribution to a 403(b) retirement plan for eligible employees, and effective, January 1, 2010, the Plan adopted safe harbor provisions. Contributions for the years ended June 30, 2014 and 2013 totaled approximately \$26,000 and \$27,000, respectively.

12) Related party transactions

The Pennington Biomedical Research Foundation provides accounting services and administrative support to the Pennington Medical Foundation (PMF). For the years ended June 30, 2014 and 2013, PMF paid the Foundation \$57,200 and \$50,000 for these services, respectively. The amounts owed from PMF at June 30, 2014 and 2013 for these types of services and other miscellaneous reimbursements were \$5,319 and \$4,261, respectively.

As part of its mission, the Foundation also has certain transactions in the normal course of operations with the Pennington Biomedical Research Center. The transactions consist of research support for salaries, research equipment, and supplies, which are processed by the Center. In addition, the Foundation reimburses the Center for certain costs pertaining to Foundation operations. For the years ended June 30, 2014 and 2013, these costs totaled \$1,859,952 and \$1,813,650, respectively. The amounts owed to the Center at June 30, 2014 and 2013 for these types of expenses was \$247,211 and \$254,248, respectively.

PENNINGTON BIOMEDICAL RESEARCH FOUNDATION
BATON ROUGE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

13) **Commitments**

In 1999, the Foundation purchased an annuity to fund the retirement obligation of a former Executive Director of the Center. The annuity's value and corresponding retirement obligation were approximately \$718,000 and \$789,000 at June 30, 2014 and at June 30, 2013, respectively.

In May 2006, the Foundation committed up to \$100,000 per year to the Pennington Biomedical Research Center for faculty support for a former Executive Director of the Center, a portion of which is derived from an endowed chair. This level of annual support began in late 2009 upon his resignation and re-appointment to a full-time research faculty position at the Center.

14) **Subsequent events**

Management has evaluated subsequent events through the date that the financial statements were available to be issued, November 5, 2014, and determined that no other events occurred that require additional disclosure. No events occurring after this date have been evaluated for inclusion in these financial statements.
